

Minneapolis Air Route Traffic Control Center Tour / Operation Raincheck

This event will give pilots a brief description of ATC Services. You will be given a tour of the Traffic Management Unit, Center Weather Service Unit, and Tech Ops. You will be given a briefing relating to communications, weather, and hypoxia. You will also be given an opportunity to sit with a controller working live traffic. Expect the event to last between 2 to 3 hours.

Directions: Upon reaching the facility, please park to the left of the Guard Shack in the "Visitor Parking" area outside of the main fence. Walk into the Guard Shack to check in with a photo ID. When everyone has checked in, you will be escorted into the facility, and must remain under escort throughout the tour.

A message from the National FAASafetyTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!
